

## ABOUT:

EMPAC L is a waste water additive specifically engineered to feed bacteria — transforming solids to liquids, reducing the presence of hydrogen sulfides (odor) while properly managing the overall health of the waste water and, in turn, minimizing the need for expensive pumping or dredging.

## NET CONTENTS:

- [ ] 2.5 GAL (9.46 L) | 26.63 LBS (12.08 KGS)
- [ ] 55 GAL (208.2 L) | 585.75 LBS (265.69 KGS)
